Installation Instructions

Stowage compartment for touring topcase

K48_R77025a

Before commencing work, you must read these installation instructions through carefully and make sure you understand them fully.

We congratulate you on your choice of optional accessories from BMW Motorrad that will enable you to customise your motorcycle in accordance with your personal preferences.

Safety is invariably an essential prerequisite for extracting full benefit and enjoyment from new accessories. Some work calls for special tools and possibly a thorough knowledge of motorcycle technology. If you are in doubt consult a specialist workshop, preferably your authorised BMW Motorrad dealer.

The range of products we offer includes a very wide variety of type-tested accessories and optional extras, and on account of this diversity all the possible equipment variants cannot be taken into account in these installation instructions. Consequently, the descriptions are restricted to the basic version of the model in question. The procedures for removing and installing other accessories possibly fitted to your motorcycle are described in the installation instructions supplied with the components. Consult your authorised BMW Motorrad dealer if you no longer have access to the sets of instructions you need.

If you have questions concerning your motorcycle or any of the accessories from our range, your authorised BMW Motorrad dealer will gladly provide advice and assistance.

We at BMW Motorrad hope you will enjoy riding your BMW and that all your journeys will be pleasant and safe.

The symbols used to draw attention to safety instructions in this manual are as follows:

Warning

This symbol stands for precautions and measures which are essential in order to protect the rider and other persons from possibly severe or fatal injury.

Attention

Specific instructions and safety precautions intended to prevent damage to the motorcycle and accessories. Non-compliance can void the warranty.

Note

Specific instructions on how to operate, control, adjust or look after items of equipment on the motorcycle.

Tightening torque

Screws, bolts and nuts are tightened in accordance with the applicable DIN/ISO standards. Tightening torques that deviate from the standards are stated. Non-compliance can result in damage to the motorcycle or accessories or can endanger the rider.

Stowage compartment for touring topcase

Retrofit kit

- Stowage compartment for touring topcase
- Rotary catch 4 of
- Countersunk-head self-tapping screw 3.5 x 8 8 of
- Installation Instructions

General instructions

Attention

If it is not standing firmly, the motorcycle could topple in the course of the operations described below. Always make sure that the motorcycle is stable and firmly supported.

Warning

Risk of burn injuries when the engine or exhaust system is hot. Allow the engine and exhaust system to cool down before starting work.

Warning

Injury to persons
Keep children and household pets well away from the work zone.

Warning

Risk of injury by snagging or electrical short-circuit.
Remove all items of personal jewellery (rings, chains, wristwatch, etc.) before commencing work.

Note

Once the retrofit kit has been installed by the workshop, these installation instructions must be handed over to the customer.
Make sure that these installation instructions accompany the retrofit kit when it is passed on to a third party.
